# UI specification
## OTCP

**Prepared by:** Filliciano Plong

**Date:** October 28, 2026

**Version:** 1.0

**Readers:** Filliciano Plong, developer and tester of OTCP. Status: 1.0 Approved 2026-10-28 — Ink; Stack V1; UI-D10 customizable tables; UI-D11 value summary. Based on approved SRS 1.0 and Architecture 1.0.

## Revision history

| Version | Date | Changes |
|---|---|---|
| 1.0 | October 28, 2026 | Approved by Filliciano Plong. First release of the UI. |

**Status:** Approved 2026-10-28 by Filliciano Plong. Version 1.0.

## 1. Purpose and scope

This document decides how OTCP looks and feels before implementation-plan issues are cut. It covers chrome, tokens, components, faceted filters, every screen in the SRS Screen map, and the Stack colour round. The SRS wins wherever this specification differs from it.

| Source | Constraint |
|---|---|
| NFR-09 | WCAG 2.2 Level AA |
| NFR-10 | Full keyboard operability |
| NFR-11 | Ban status, errors, and selection never by color alone |
| NFR-12 | First-class layout at 375 CSS px; also 1280 px |
| NFR-13 | Clean, minimal, monochrome-leaning chrome; card art supplies most color (Should) |
| NFR-16 | Current Chrome, Firefox, Safari, Edge |
| Architecture | Tailwind 4; FilterEngine + SearchIndex (ADR-012, ADR-009) |

## 2. Chosen direction

**Ink** is the product chrome (UI-D1 APPROVED 2026-10-27 6:54 PM PT). Quiet monochrome shell; card art is the only strong color.

Default theme: Match system. Phone nav: hamburger drawer. Desktop search, Lists, and Collection: List / Grid / Table; under ~640 CSS px Table is hidden (List / Grid only on phone). Lists and Collection tables are customizable (UI-D10); Collection/Lists/Decks show a value summary bar (UI-D11).

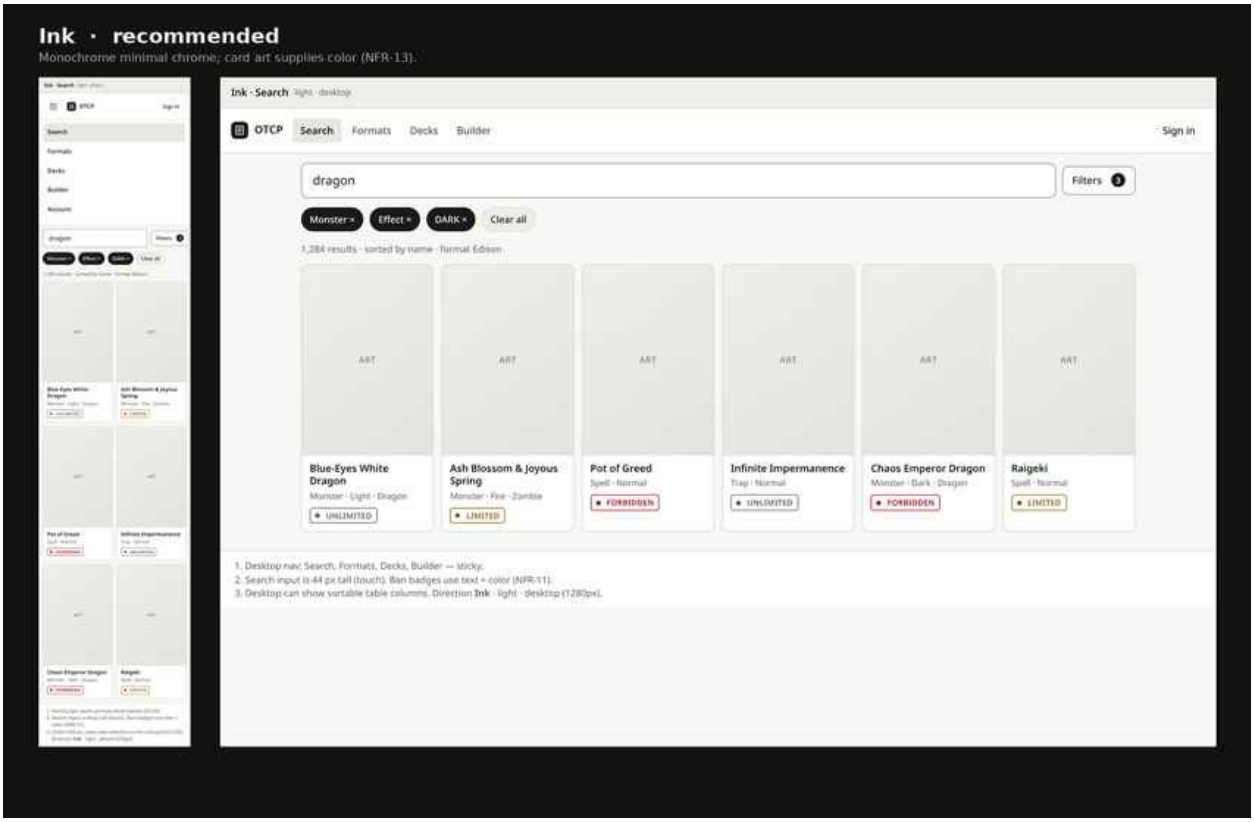

**Figure 1.** *Ink direction — phone and desktop.*

**Purpose:** Lock chrome for implementation.

**Assumption:** Placeholder ART.

**Limitation:** Arena/Ledger kept on file only.

Directions considered: Arena and Ledger remain under docs/images/ui/ and docs/ui/directions/ for history; not used in the main screen set.

## 3. Design tokens (Ink)

File: docs/ui/tokens.css. Light/dark via prefers-color-scheme and data-theme. Contrast: docs/ui/contrast.txt (AA).

| Token | Light | Dark | Use |
|---|---|---|---|
| `--color-bg` | #F7F7F5 | #0E0E0E | Page background |
| `--color-surface` | #FFFFFF | #171717 | Cards, panels |
| `--color-text` | #141414 | #F2F2F0 | Body |
| `--color-text-2` | #5C5C5C | #A8A8A4 | Secondary |
| `--color-accent` | #1A1A1A | #F2F2F0 | Primary / active |
| `--color-ban-forbidden` | #B00020 | #FF8A95 | Forbidden + label |
| `--color-ban-limited` | #8A5A00 | #F2C661 | Limited + label |
| `--color-ban-semi` | #3A5A8A | #8FB4E8 | Semi-Limited + label |

| Scale | Values |
|---|---|
| Font | System UI sans; mono for YDK |
| Size / space / radius | 11–24 px / 4–48 px / 4–12–pill |
| Touch / motion | ≥44 CSS px / 120–200 ms (0 if reduced) |

## 4. Components

| Component | Notes |
|---|---|
| Search + Filters button | 44 px search; Filters shows active count |
| Facet group | Collapsible; live counts; search-within; ranges |
| Active filter chip | Removable; Clear all above results |
| Ban badge | Text + color + dot (NFR-11) |
| Data table | Default desktop view (≥~640) on Search, Lists, Collection; customizable columns; phone: compact icon rows (no Table) |
| Count line | Same live card-count format above Search, Lists, and Collection (updates with filters); no prices or vendor captions |
| Value summary | Current / Paid / P/L + priced count on Collection, Lists, Decks — only place for price stats |
| Addable columns | Full catalog in SRS Table columns reference (YGOPRODeck misc=yes); set_price 0→blank; Link markers use icon |
| Nav | Desktop links; phone hamburger drawer |
| Sheet / dialog | Phone Filters sheet; export/import/delete |

## 5. Faceted filters

Faceted search in the style of major card marketplaces: game first, then core (any TCG) and game-extension facet groups driven by declaration data. Live option counts; include/exclude and AND/OR where declared; desktop left sidebar; phone full-screen Filters sheet with See N results; chips + Clear all. Presets are Should. Engine: ADR-012 / FilterEngine; 100 ms target for name search and on-screen counts (UNVERIFIED until S-01).

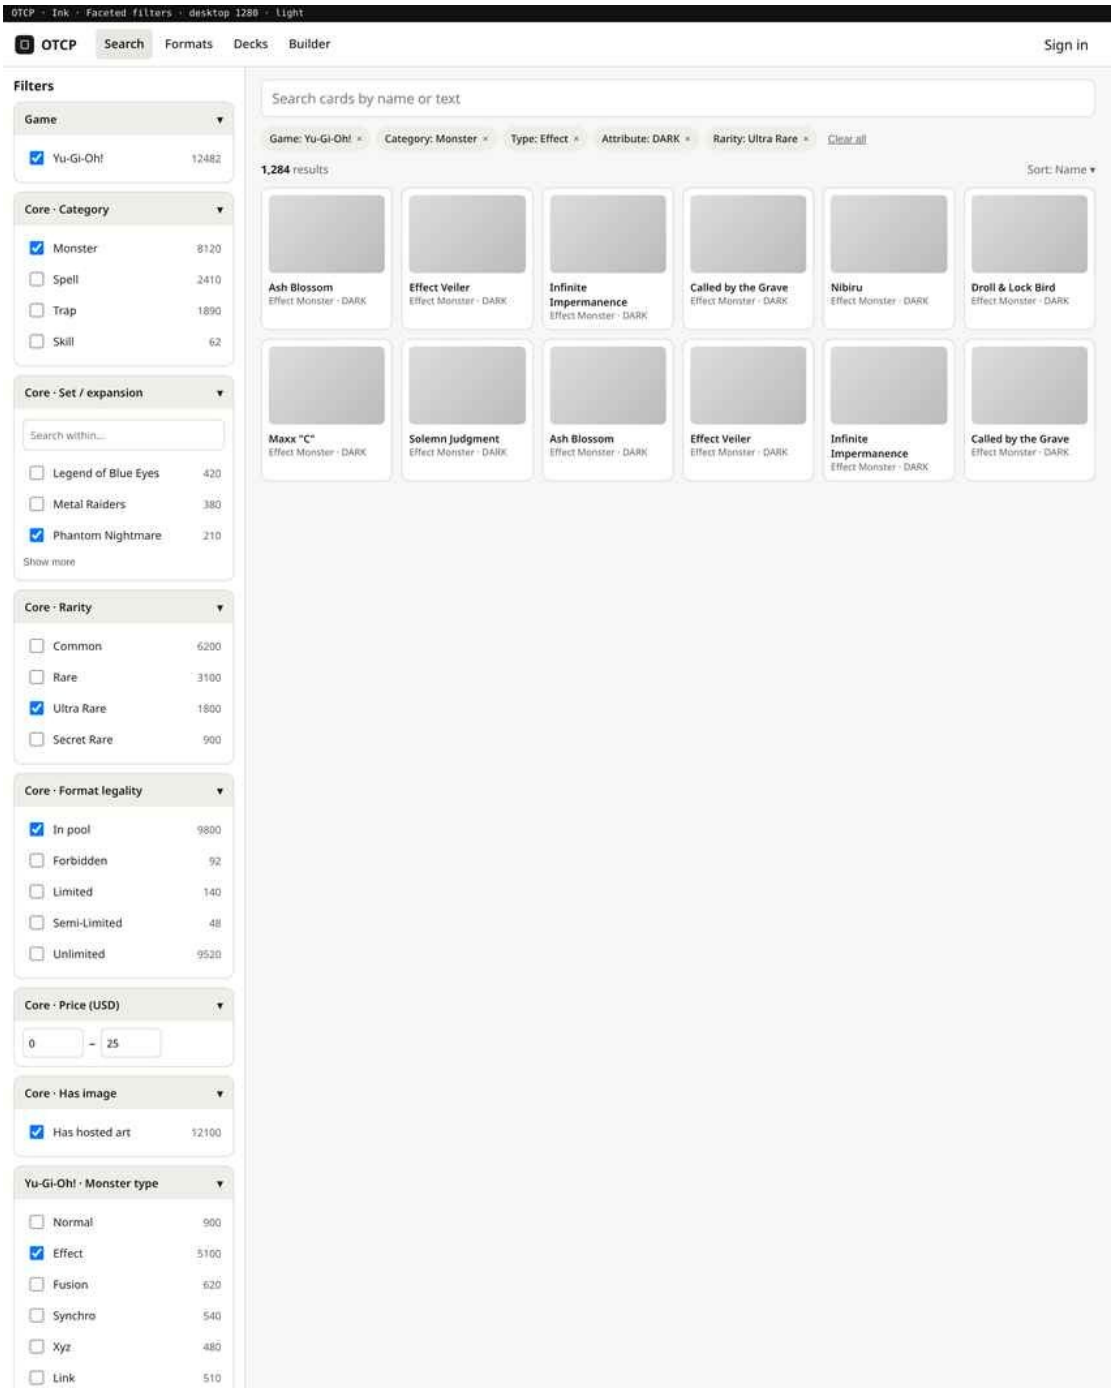

**Figure 2.** *Desktop — left facet sidebar with live counts and active chips.*

**Purpose:** Primary filter chrome at 1280 px.

**Assumption:** Yu-Gi-Oh! selected.

**Limitation:** Counts are illustrative.

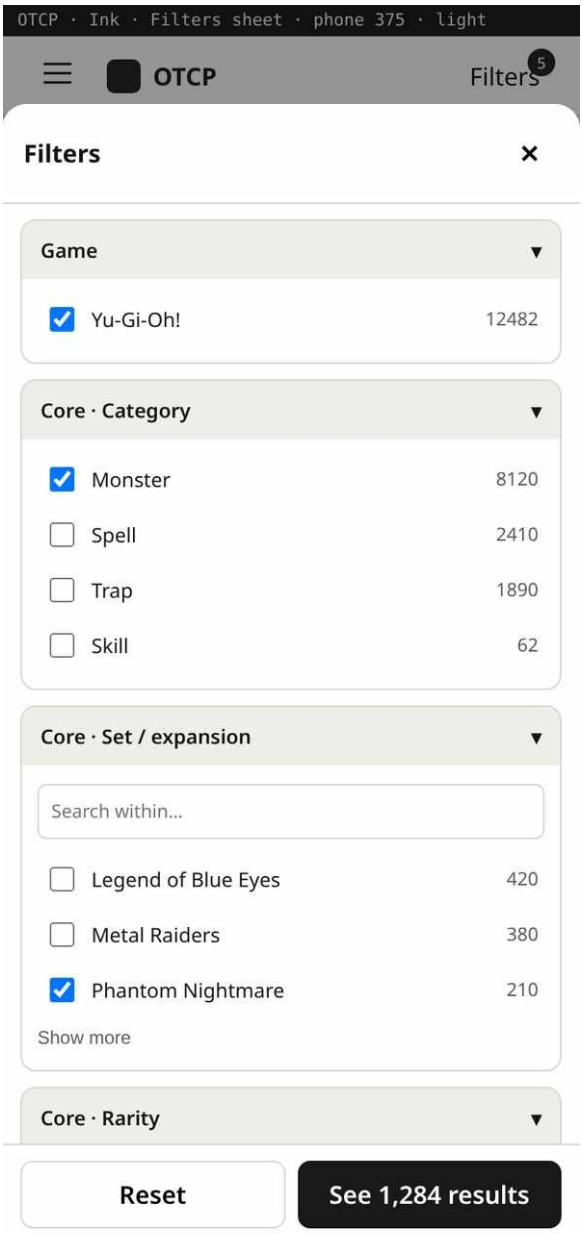

**Figure 3.** *Phone — Filters sheet open over results; hamburger for app nav.*

**Purpose:** Full-screen facet sheet at 375 px.

**Assumption:** Same declarations as desktop.

**Limitation:** Apply commits facets.

## 6. Screens

Phone sheet: screens-ink-phone-sheet.png. Desktop sheet: screens-ink-desktop-sheet.png.

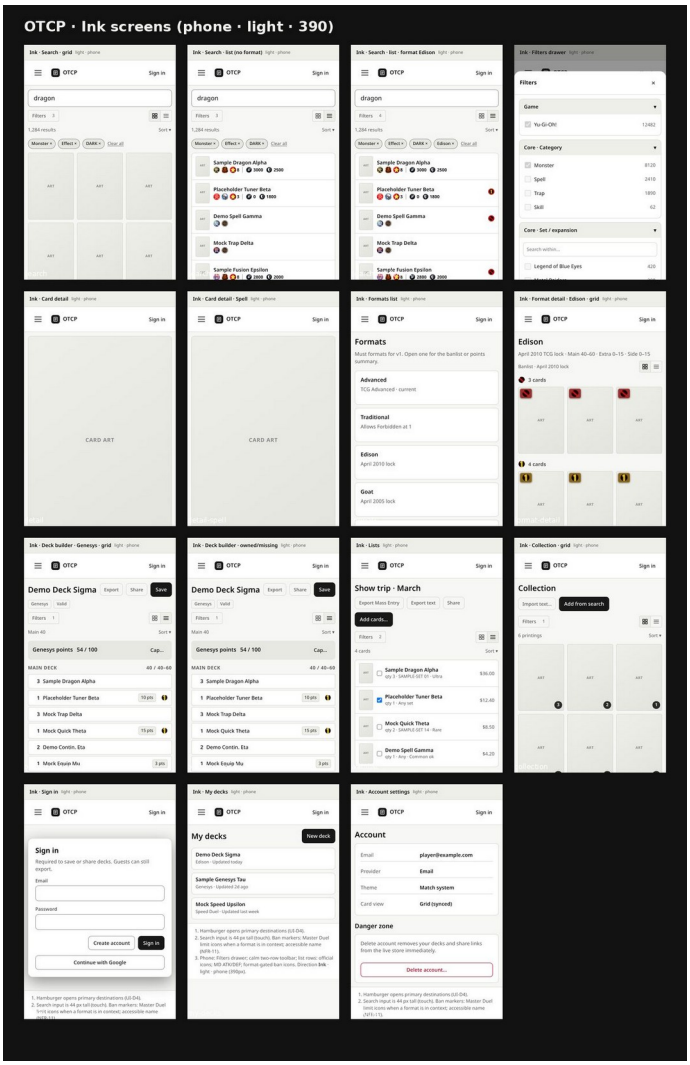

**Figure 4.** *Ink phone screens (hamburger + card grid on narrow table).*

**Purpose:** 375 px inventory.

**Assumption:** Ink tokens.

**Limitation:** About/Notices structure-only.

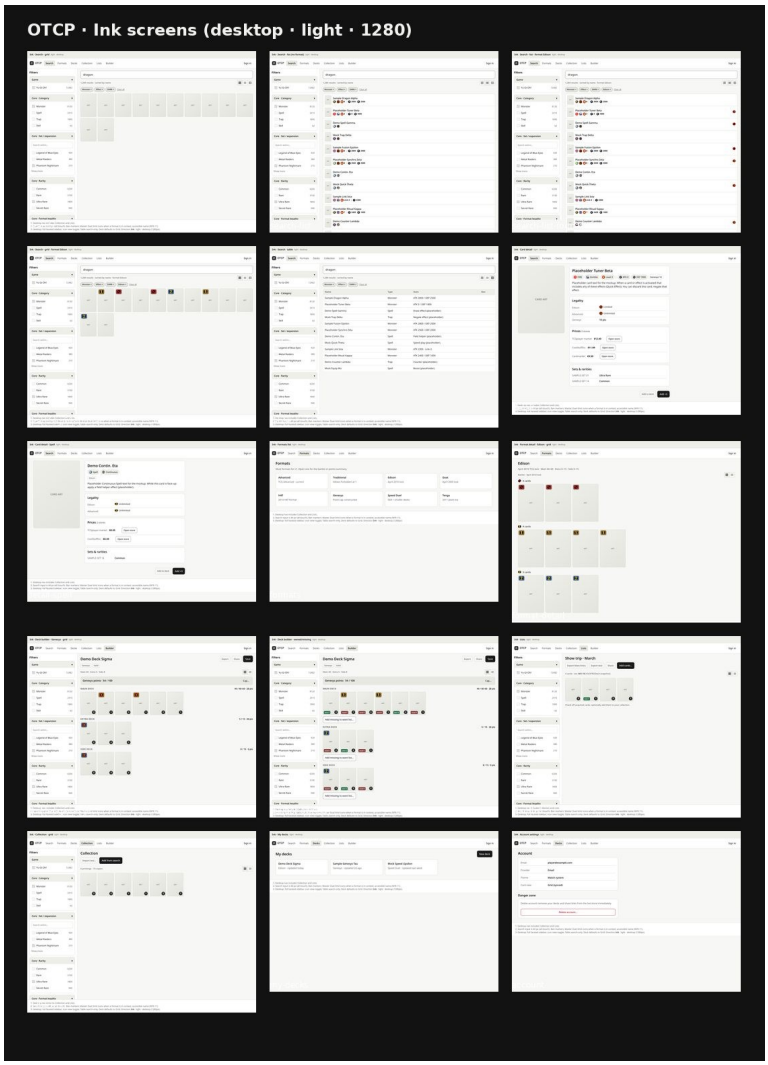

**Figure 5.** *Ink desktop screens.*

**Purpose:** 1280 px inventory.

**Assumption:** Ink tokens.

**Limitation:** Filter sidebar detailed in section 5.

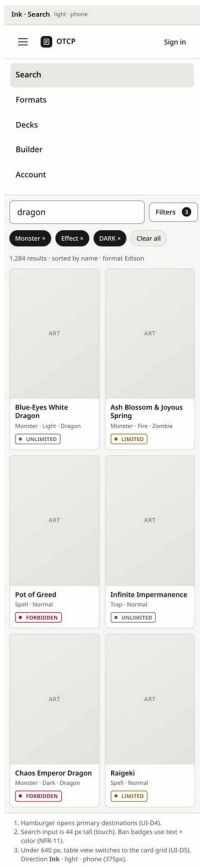

**Figure 6.** *Search — phone with Filters badge and active chips.*

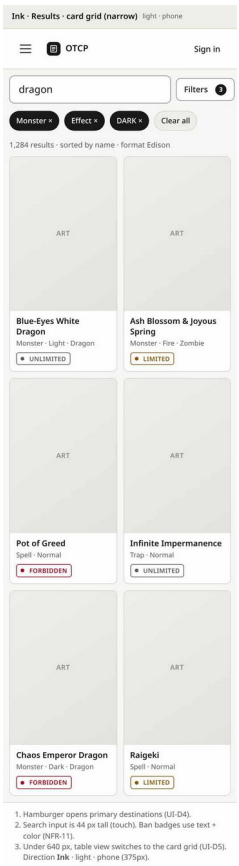

**Figure 7.** *Results on phone — card grid under ~640 px (UI-D5).*

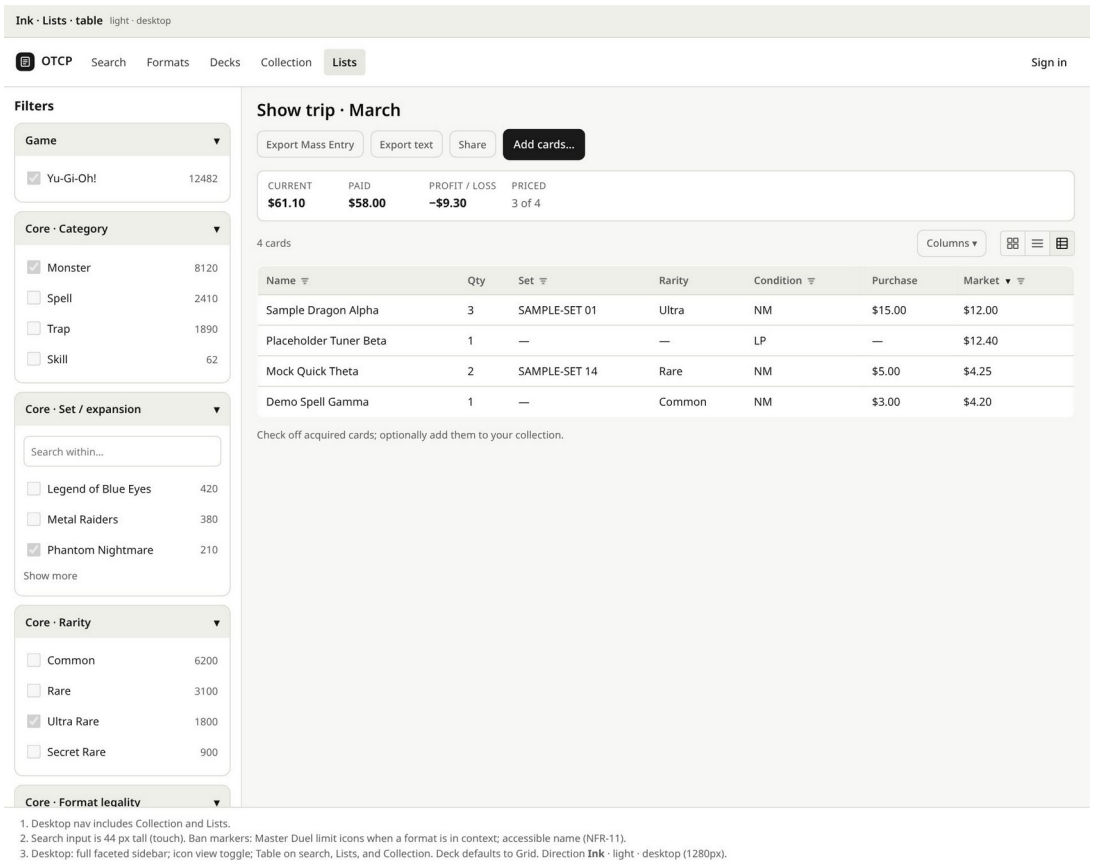

**Figure 8.** *Lists — desktop Table default (incl. Condition); count line "N cards"; value summary (UI-D9, UI-D10, UI-D11).*

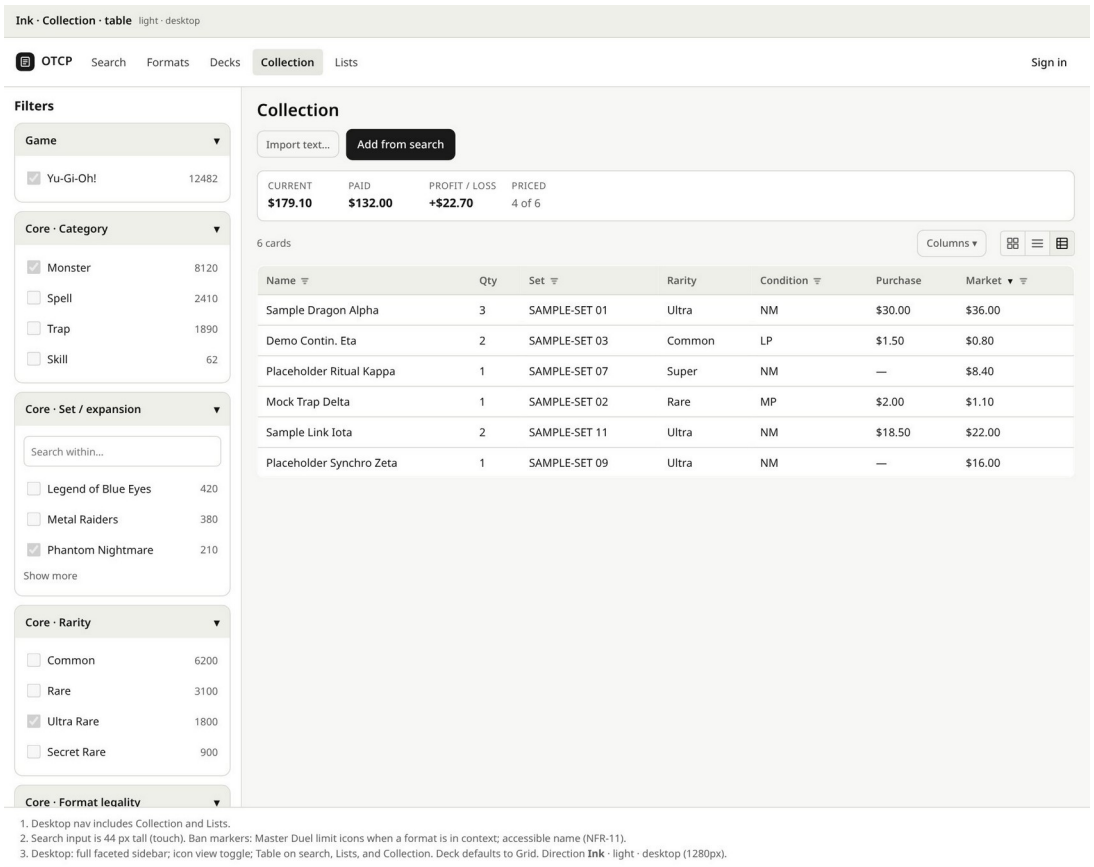

**Figure 9.** *Collection — desktop Table default; count line "N cards"; value summary + Condition (UI-D9, UI-D10, UI-D11).*

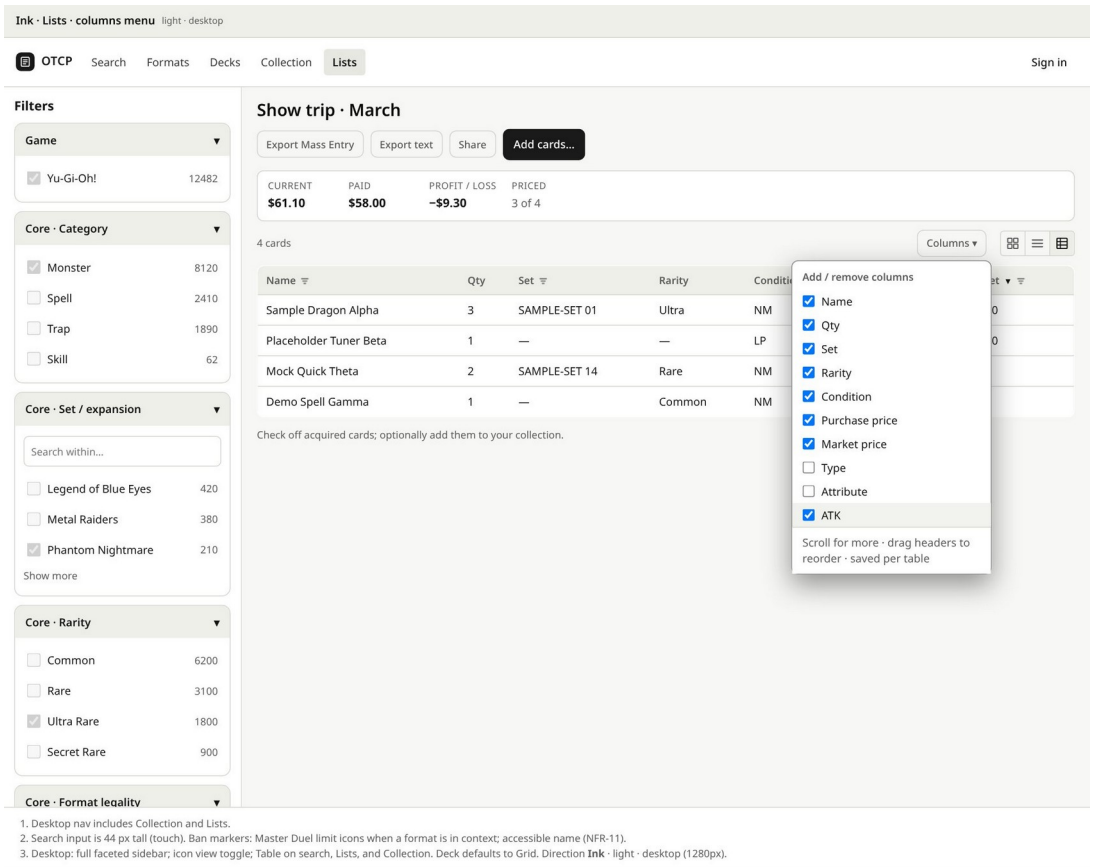

**Figure 10.** *Lists — header Columns / right-click menu adding ATK (UI-D10).*

Additional phone frames (detail, Genesys, Speed, account) live in docs/images/ui/ and the phone contact sheet above.

## 7. App icon

Shape APPROVED: A · Stack. Colour round:

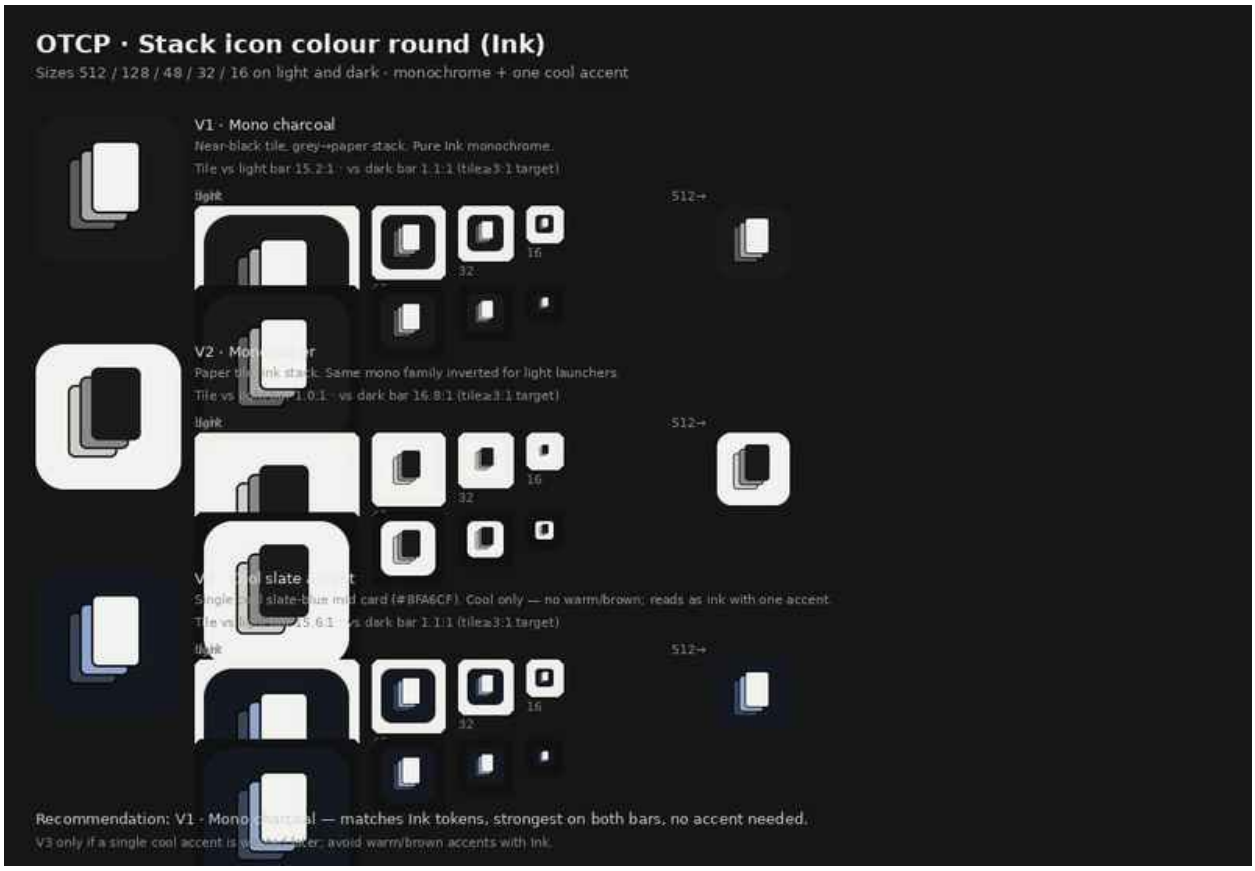

**Figure 11.** *Stack colour variants V1–V3 at 512/128/48/32/16 on light and dark.*

**Purpose:** Approved colour V1 Mono charcoal (UI-D6).

**Assumption:** No trademarks / card art.

**Limitation:** V2/V3 rejected for this release.

| Variant | Status |
|---|---|
| V1 · Mono charcoal (#1A1A1A) | APPROVED — ship favicon / PWA assets |
| V2 · Mono paper | Rejected for this release |
| V3 · Cool slate accent | Rejected for this release |

# 8. Accessibility

| Rule | How |
|---|---|
| WCAG 2.2 AA | contrast.txt |
| Keyboard | Tab order; sheets trap focus; Escape |
| Not by color alone | Ban text; numeric facet counts |
| Touch | ≥44 px; Filters control |
| Reduced motion | Motion tokens → 0 |

## 9. Decisions

| ID | Decision | Status |
|---|---|---|
| UI-D1 | Ink | APPROVED |
| UI-D2 | Stack shape | APPROVED |
| UI-D3 | Match system | APPROVED |
| UI-D4 | Hamburger | APPROVED |
| UI-D5 | Under ~640 px: compact icon rows on Search/Lists/Collection (no Table); Grid optional | APPROVED |
| UI-D6 | Stack colour V1 Mono charcoal | APPROVED 2026-10-28 |
| UI-D7 | Approve UI 1.0 | APPROVED 2026-10-28 |
| UI-D9 | Table default on desktop Search/Lists/Collection; compact icon rows on phone (no Table) | APPROVED 2026-10-28 |
| UI-D10 | Customizable Search/Lists/Collection tables; Lists&Collection defaults include Condition; full setup restored on reopen | APPROVED 2026-10-28 |
| UI-D11 | Value summary: per-unit prices; Current/Paid/P/L formulas; condition/variants | APPROVED 2026-10-28 |
| UI-P1 | Link marker row size (16 CSS px) | Deferred polish |

SRS/Architecture folds are FOLDED in pending_edits.md (no version bump).
